

# Flue gas and transportation fan MT Arr.4

The MT fans are specially designed to meet the requirements of an industrial fan. The capacity range for a directly driven version is from 50 m<sup>3</sup>/h to 7000 m<sup>3</sup>/h, and the fans are suitable for flue gas, exhaust, dusty air, and transportation of sawdust. In the standard version the fans are primed and painted, but we can also deliver versions treated with epoxy, galvanized, in stainless steel or acid proof metal. Extra equipment is flexible connections, vibration dampers, drain plug, spark protection, etc.
